~All packages can be customized to fit your specific project. You can add more windows or doors to your package for an additional charge on the standard packages. Building packages are made to your specific dimensions.

~We have a complete line of accessories to show your own personal style such as: cupolas, weather vanes, skylights, etc.

IMPORTANT STORAGE INSTRUCTIONS:

If the metal is not going to be used immediately, store in a well ventilated and dry area. Outdoor storage could result in moisture forming between the sheets of painted metal. This constant condensation between the panels can result in white rust, water stains, and/or paint flaking immediately or several years later.
