

## 175SN Profile

# TOUGHLok™

by Mansea Metal

ToughLok 175 Snap Lock is a snap-together standing seam roof system with a 1-3/4" tall vertical rib. Its continuous interlocking engineered design allows thermal movement and requires no mechanical seaming for weathertight integrity. ToughLok 175SN is distinctive for its broad width seam and impressive structural capabilities. This popular panel has a concealed fastener and clip enabling quick and simple installation while withstanding extremely high design pressures including open purlin roof systems.

### *Applications:*

➤ Commercial ➤ Institutional ➤ Residential
