PREMIUM RIB

GENERAL INFORMATION

Slope: Minimum recommended roof slope is 3:12.

Coverage: 36" coverage width.

Length: Minimum recommended cut length is 3'-0". Maximum is 45'-0". *Longer panels need special consideration for erection, packaging, and shipping.*

Substructure: Designed for use over a solid substrate or open structural framing. *Uniform and properly aligned substructures are necessary to avoid distortion.*

Gauge: Available in 29 gauge and 26 gauge in Galvalume and WeatherXL colors.

Fasteners: Exposed fastened. Contact your representative for assistance in choosing the proper fastener for your project.

*All panels are subject to surface distortion when fasteners are improperly applied. Fasteners that are over-driven will cause stress across the face of the panel at or near the point of fastening.

- 36" coverage
